

## Contact Information

- **Name:** Saeed Motevalian
- **Address:** Tehran, Iran
- **Phone:** +989124309658
- **Email:** saeed@motevalian.com
- **LinkedIn:** [saeed-motevalian-870b52a4](#)

## Objective

Chief Technology Officer with 12 years of experience in technology leadership, specializing in software architecture and development across various platforms. Proven expertise in Java, Spring Boot, ExpressJS, Android, and iOS development. Eager to leverage deep technical knowledge and strategic leadership skills to drive innovation and efficiency in a dynamic environment.

## Professional Summary

- Lead a team of 10+ software engineers, architects, and IT professionals to design and implement robust technology solutions.
- Oversee the architectural designs and development processes for high-scale projects utilizing Java, Spring Boot, and ExpressJS.
- Champion agile methodologies and DevOps practices to enhance deployment cycles and product quality.
- Proficient in **Java** programming languages, as well as Android Studio, Gradle, Proguard, and popular development libraries.
- Solid experience with **RESTful APIs**, database management, and cloud integration (Firebase, AWS, etc.).
- Strong knowledge of Material Design guidelines and a passion for creating polished, user-friendly interfaces.
- Proven ability to lead and mentor development teams, ensuring code quality and timely project delivery.
- Track record of optimizing app performance, including memory management and load times.
- 5 years of experience in **Angular app development**, with a good understanding of web architecture, TypeScript, Modules, Components, and application logic.
- 3 years of experience in **Backend app development**, proficient in monolithic and microservice architectures, service discovery, RPC, socket, and stateless design patterns.
- About 2 years of experience in **iOS app development**, proficient in Objective-C and Swift, with a strong understanding of mobile architecture and UI/UX design principles.

## Professional Experience

### Chief Technology Officer | SamaSoft | Tehran, Iran | 2014 - Present

- Led a team of developers in the design and development of Android applications and backend projects, enhancing educational and welfare systems.
- Collaborated with cross-functional teams to deliver high-quality apps on time and within budget.
- Developed and maintained RESTful APIs for app functionality, ensuring secure and reliable data exchange.
- Actively participated in code reviews and conducted knowledge sharing sessions to promote best practices within the team.

### Full Stack Developer | KhoshPoshanRadin | Tehran, Iran | 2018 - 2021

- Contributed to the design, development, and maintenance of Android applications for marketing and C2C trades.
- Implemented both backend and frontend projects to connect customers and facilitate trade.

### Android Developer and Consultant | AminHolding | Tehran, Iran | 2015 - 2018

- Developed mobile applications and implemented Firebase and other cloud services for app analytics, crash reporting, and user authentication.

## Education

- **Bachelor's Degree in Information Technology (IT)**
- **SufiRazi University, Zanjan, 2013**

## Skills

- **Programming Languages:** Java, JavaScript, TypeScript, Swift
- **Technologies and Tools:** SpringBoot, Android Studio, Gradle, XCode, CocoaPod, npm, maven, Docker, Kubernetes, Sentry, Firebase, gRPC, Eureka, Consul, Zuul, ExpressJS, Angular,
- **Databases:** Postgres, SQLite, MSSQL, MariaDB, MongoDB, ELK, Redis
- **Database Management Systems:** Realm, Room, Sequelize, Hibernate, TypeORM, Prisma
- **Development Methodologies:** Agile/Scrum, DevOps
- **Version Control:** Git, Mercurial

## Open-Source Projects

- Contributed to the "Multi-OS-Engine" project, enabling iOS app development using Java, supporting the community pro bono until the emergence of competing technologies.
